PROFILE

As a fresher, I possess both theoretical and practical knowledge, but I need a platform where I can apply my skills in real-life situations. I am highly punctual and diligent, which enables me to complete the tasks assigned to me on time. I am committed to meeting the requirements of the company and strive to do my best in all my endeavors.

PROJECTS

Bharat Medical Store
https://github.com/Mustakimpiti/BharatMedical

I developed a web application using ASP.NET, programmed in VB and utilized SQL Server for the database. In addition, I used Bootstrap for UI design.

Onliine Mobile Shop App
https://github.com/Mustakimpiti/MobileShop

I developed an Android app for my college minor project using Kotlin in Android Studio with a SQLite database.

Basic CRUD Web Apps

I have experience in building basic CRUD applications using both J2EE and ASP.NET frameworks.

J2EE - https://github.com/Mustakimpiti/CrudWithJava
ASP.NET - https://github.com/Mustakimpiti/PracticeCRUD
